Summary

Detail-oriented AI & Data Science undergraduate with hands-on experience in data analysis, reporting, dashboard development, and business intelligence. Skilled in collecting, cleaning, validating, and analyzing data using Python, SQL, Excel, and Power BI to generate actionable insights and support business decision-making. Experienced in KPI tracking, forecasting, stakeholder communication, and process improvement through internships and analytical projects. Strong analytical and problem-solving abilities with a passion for transforming complex data into meaningful business outcomes.

Technical Skills

Data Analysis: Python, SQL, Excel, Power BI, Data Cleaning, Data Validation, Reporting

Business Intelligence: Dashboard Development, KPI Tracking, Forecasting, Trend Analysis, Business Reporting

Programming: Python, SQL, JavaScript

Database Management: SQL, SQLite

Visualization: Power BI, Excel Charts, Business Dashboards

Professional Skills: Analytical Thinking, Problem Solving, Stakeholder Communication, Attention to Detail, Process Improvement, Presentation Skills

Experience

Elevate Labs — Data Analyst Intern

Aug 2025 – Oct 2025

- Built retail sales forecasting models using Random Forest, achieving an R^2 score of 0.95.
- Performed data cleaning, validation, feature engineering, and exploratory analysis on structured datasets.
- Developed automated reporting workflows and analytical solutions using Python and SQL.
- Generated business insights and improved reporting accuracy through data quality initiatives.
- Collaborated with stakeholders to communicate findings and support data-driven decision-making.

Research Intern — Bonam Venkata Chalamayya Engineering College

Feb 2025 – May 2025

- Collected, analyzed, and interpreted data to support recommendation system development.
- Maintained project documentation, reports, and presentations for stakeholders.
- Collaborated with faculty mentors to gather requirements and deliver project outcomes.
- Presented findings and recommendations through reports and academic reviews.

Projects

Sales Performance Dashboard | Power BI, Excel, SQL | [GitHub](#)

May 2026

- Developed an executive dashboard tracking sales, profit, targets, returns, and operational KPIs.
- Performed data validation and quality checks across multiple datasets before report generation.
- Created executive summaries, performance reports, and trend analyses to support business decision-making.
- Automated reporting workflows and improved visibility into operational performance metrics.

Healthcare ETL & Fraud Detection Platform | Python, SQL, Flask, Machine Learning | [GitHub](#)

Apr 2026

- Designed ETL workflows for data extraction, transformation, validation, and reporting.
- Generated analytical reports and actionable insights from healthcare datasets.
- Maintained data accuracy through validation checks and quality assurance processes.
- Improved operational efficiency through automation of repetitive data-processing activities.

Education

Bonam Venkata Chalamayya Engineering College, Odalarevu

2022 – 2026

B.Tech in Artificial Intelligence & Data Science

CGPA: 8.23

Certifications

- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate [Credential](#)
- Google Data Analytics Professional Certificate
- ServiceNow Certified System Administrator (CSA) [Credential](#)
